PROJECTS

Study Notion
StudyNotion is a fully functional ed-tech platform that enables users to create, consume, and rate educational content. the platform is built using MERN stack, which include ReactJS, NodeJS, MongoDB, and ExpressJS.

Shopping Cart 🔗
As the Lead Frontend Developer for a dynamic e-commerce project, I had the opportunity to take charge of the development of a modern shopping cart website using React and Tailwind CSS. This project was an excellent opportunity to showcase my skills in building responsive and feature-rich user interfaces, with a primary focus on user experience and performance optimization.

RandomGif 🔗
The React website uses an API to fetch and display random GIFs, providing users with an engaging and ever-changing visual experience. Leveraging React's responsive and interactive capabilities, the site ensures a smooth and enjoyable platform for discovering and sharing entertaining GIFs.
